COMPLETE with STAND ASSEMBLY & ½ HP CLUTCH MOTOR

16mm lift

Larger Bobbin

Dual tension

JUKI LU1508NS unique feed mechanism promises excellent efficiency. The machine is applicable to an extended range of heavy materials for industrial use, such as cargo handling belts and containers, as well as those for general use, such as car seats, sofas and bags, thereby contributing to both improved quality and increased productivity.

The LU-1508NS has adopted a dual-tension mechanism, with which the machine can support high-tension sewing with thick thread. This means that the machine produces seams of excellent quality on a broader range of materials, extending from light- to heavy-weight.

The machine is equipped as standard with a safety clutch for preventing hook breakage
LU1508NS uses Needle System: 135x17
